The mean of averaged % of state '1' per subject

Two-sided p-value = 0.667
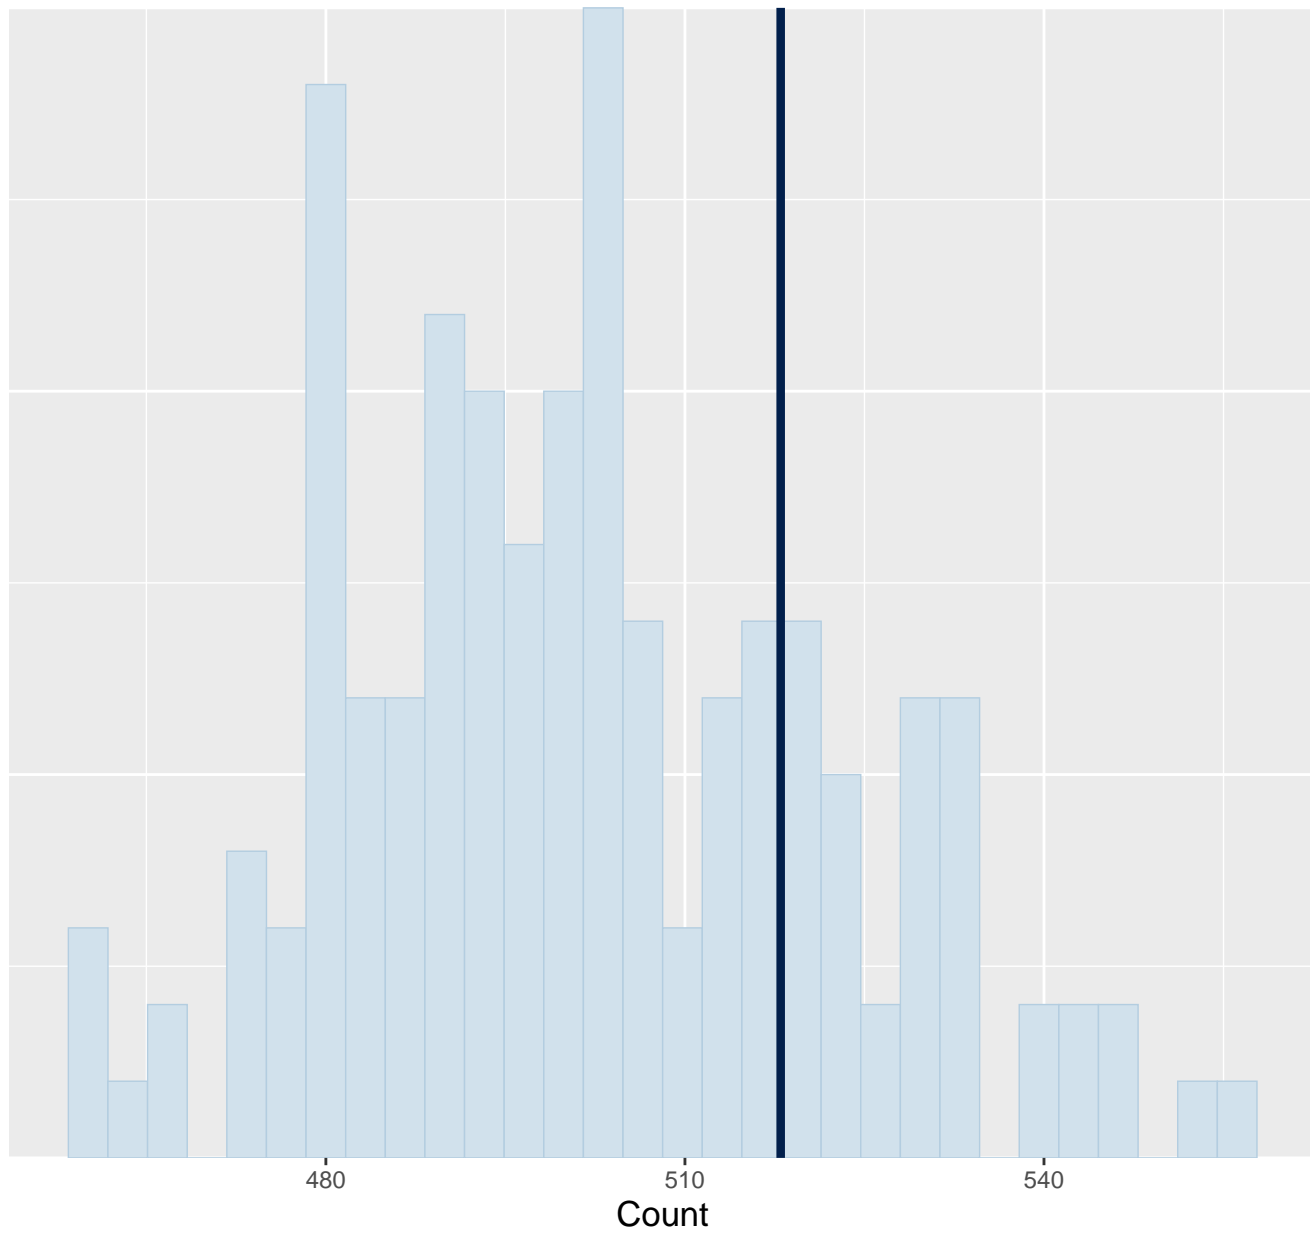

The variance of averaged % of state '1' per subject

Two−sided p−value = 0.667
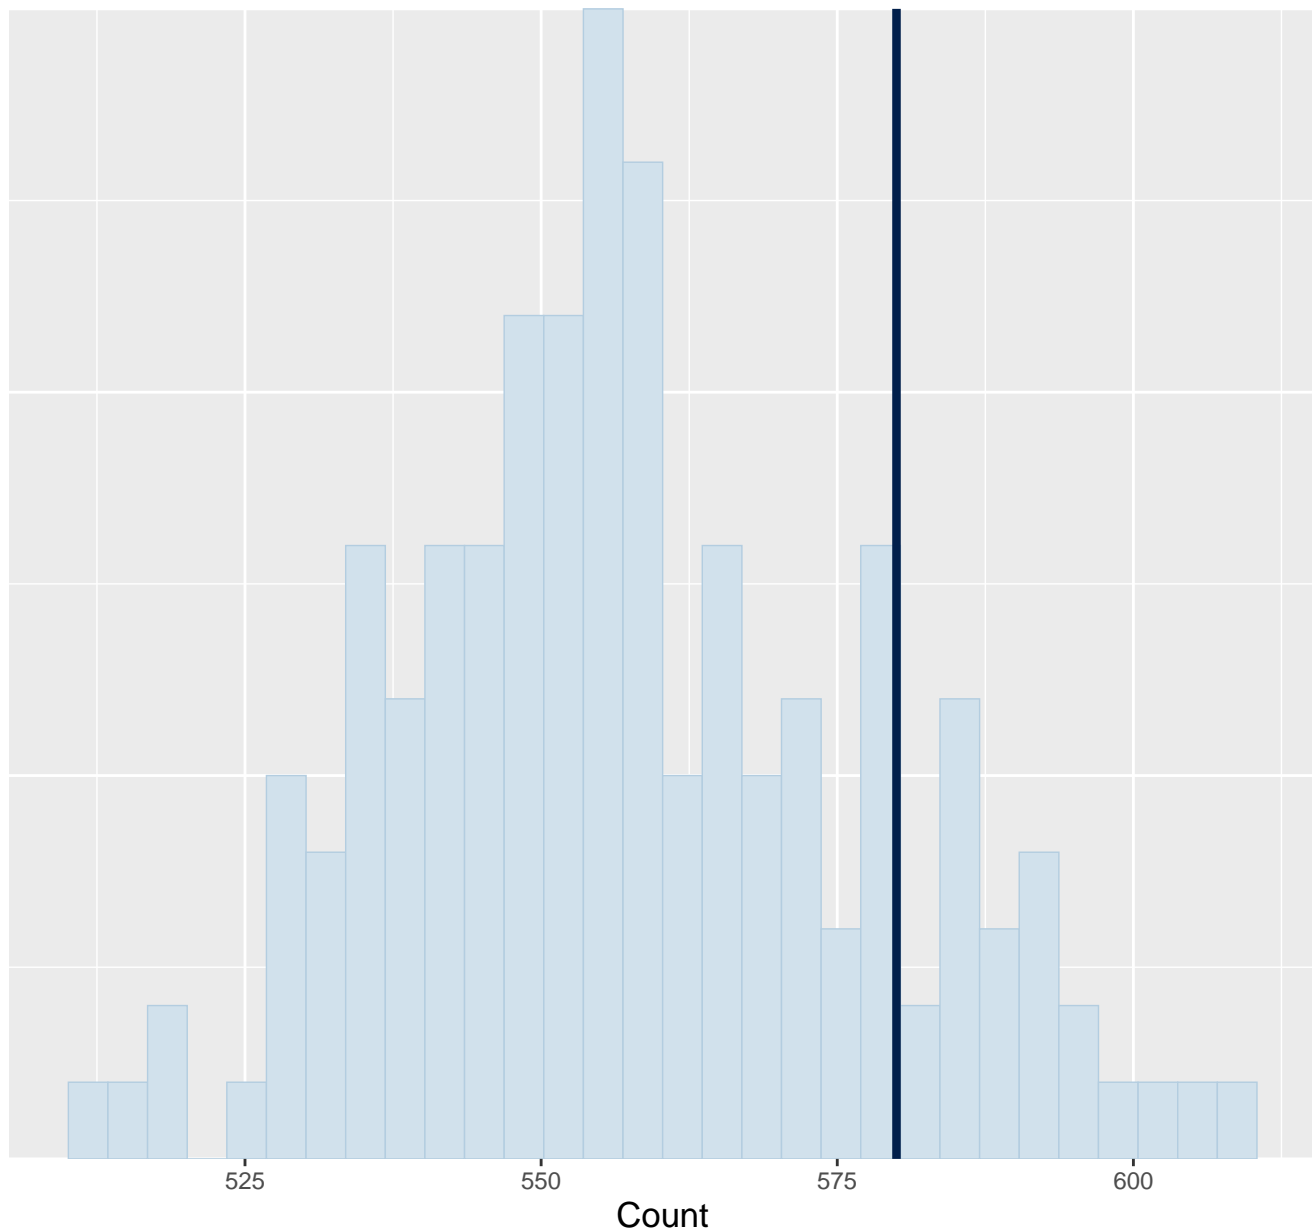

Total number of transitions from 0 to 1 predicted

Two−sided p−value = 0.453

Total number of transitions from 1 to 0 predicted

Two−sided p−value = 0.28

Total number of transitions from 0 to 0 predicted

Two−sided p−value = 0.84

Total number of transitions from 1 to 1 predicted

Two−sided p−value = 0.173
